

"31.000 Fonts"

DVD with 31,000 Fonts by Jungclaus Consulting

Documentation by Ulrich Stiehl, Heidelberg, 15th March 2007

The company Jungclaus Consulting in 25474 Ellerbek (Germany) run by Lars Jungclaus released a DVD containing exactly 31,006 TrueType fonts (and also a few dozen OpenType fonts which are not listed in my documentation). All 31,006 TTF fonts have a combined size of 1,753,229,974 Bytes (1.7 Gigabytes) and are sold via Ebay as one single DVD at 13.79 Euro including postage. So the cost per font is 1379 Cents divided by 31006 = 0.044 Cent per font.

I document this DVD comprising both commercial and non-commercial fonts by 2 huge files:

<http://www.sanskritweb.net/forgers/f31000e.pdf> (634 pages) contains the external file data, i.e. the long and short file name, the date of the file and the file size in bytes, e.g.

AJenson-SemiBold.ttf (**AJE9E8~1.TTF**, 26.01.2007, 139116)

<http://www.sanskritweb.net/forgers/f31000i.pdf> (1784 pages) contains internal data, e.g.:

AJE9E8~1.TTF | AJenson | SemiBold | ALLTYPE:AJenson SemiBold:ATECH | AJenson SemiBold | Converted from e:_downl~1\fonts_AJ7791~1.TF1 by ALLTYPE | AJenson-SemiBold | | Copyright (c) 1995, 1996 Adobe Systems Incorporated. All Rights Reserved. Adobe Jenson is a trademark of Adobe Systems Incorpor

The link between the data records of these two files is the short file name.

Note: On 25th March, 10 days after publication of my documentation, Jungclaus Consulting discontinued the distribution of above "31.000 Fonts" DVD and of similar font CDs via Ebay.
